

Amendments to the Specification

At the bottom of page 2, after the last paragraph, please add the following:

- **Brief Description of the Figure**

The figure illustrates a laser according to the invention. --

At page 15, please amend the paragraph at lines 10-15 as follows:

A second item of this patent is therefore and electrically pumped device structure for an organic light emitting diode, using the above mentioned emitting materials. An organic laser device **device 10** of the invention comprises, in order, a substrate **substrate (20)**, a bottom electrode layer **layer (22)**, an organic layer ~~structure~~ **structure (24)** comprising at least one spiro compound **compound 26** of the formula I, and a top electrode layer **layer (28)** within a laser cavity **cavity (30)**.
